

## **UPDATE ON CONSTRUCTION OF DONALD G. DEDMON ATHLETIC COMPLEX**

The Board of Directors of Shelby High School Athletic Booster Club is excited to announce the start of construction of the Donald G. Dedmon Athletic Complex. Plans are to begin construction after the first of 2022. Donations toward this 2-million-dollar project for the student athletes of Shelby High School continue to come in. All donations are appreciated and encouraged. Individuals have purchased brick pavers for the Jim Horn Walkway, lockers for the Chris Norman football locker room, David Steeves boys locker room and the Betsy Martin girl's locker room as well as John Winston coach's locker room.

Individuals and groups have donated money to become room sponsors for the eight designated rooms to honor all our head football coaches and individuals that have made a long-time commitment to the success of our athletic program. There are additional opportunities for naming rights of other rooms in the new complex.

The Board of Directors needs your financial support for this community-wide project to honor the past and future student athletes at Shelby High School. Check our website
